ABOUT US

Ren Jetting Systems LLP, based in Ahmedabad, has been a well-established manufacturer of water jetting and misting equipment since 2017. They have recently expanded their product line to include fire skids, branded as **FireSkid**. These **FireSkid** are now equipped with UDOR brand triplex pumps from Italy and other high-quality accessories sourced from Europe.

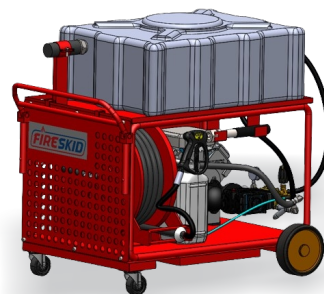

Ren Jetting Systems LLP is a part of **Boss Hydraulics LLP**, a company with extensive experience in manufacturing pumps since 2000. They have a significant export footprint, serving over 25 countries globally.

All **FireSkid** systems are thoroughly tested and come with service support available throughout India, ensuring reliability and efficiency in firefighting applications.

FIRE FIGHTING SKID

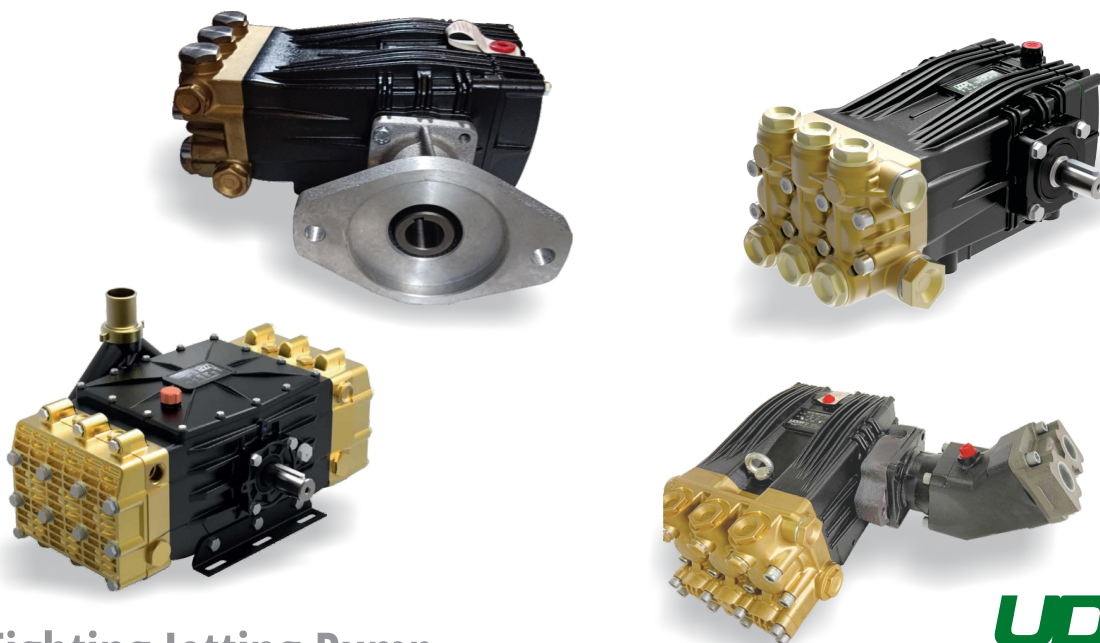

Firefighting skids are powered by petrol or diesel engines, equipped with triplex plunger pumps. They offer a range of performance options, with flow rates from 8 lpm to 40 lpm and a maximum pressure of 200 bar. Engine power varies from 4 hp to 13.5 hp, allowing for customizable solutions to meet different firefighting needs.
